

## **Public Transportation & Taxis**

With taxis, buses, rental cars and even private planes, Jamaica's variety of transportation options make it one of the most easily accessible islands in the Caribbean.

### **Public Transportation**

Buses are available on a limited basis throughout Jamaica, and feature many stops within the island's major cities.

### **Taxis**

Cabs can be identified by red PPV tags (Public Passenger Vehicle) hung alongside their regular license plates, and feature fixed rates between one destination and another. Limousines, air-conditioned coaches and local bus service are also available, and connect most villages, cities and towns.
